Sir

I have the honor to acknowledge receipt of your letter No 4696 dated 20 September 1897, forwarding copy of letter No 372 M&S 26-96 dated 17 idem from the Munzrcor Secretary.

2 It is already explained in my letter No 4439 dated 19 February 1896 and in the absence of any definite decision on the

question

questions raised therein I feel quite unable to decide upon a design.

3. As promised in para 6 of my last letter, I wrote to Madura and got up a Silpy or Temple builder some months ago but I found him not equal to the work though he is reputed to be the best man available in those parts.

4. If the Temple is to be Vyadic suited for worship by all Vedic Hindus, the accompanying rough sketch gives my idea of such an one. It provides places for eight or nine important deities of the Hindu Mythology. What these should be, and where they should be located may be determined along with other details, if the general idea meets with approval.

5. I would however strongly recommend the adoption in all details of the plan of the old Kalibid Temple,

which is already available. Thus will be quite on the safe side and thoroughly unobjectionable, being merely a reproduction of a very old temple.

I have the honor to
(Signed) E R Lubroyar
Comptroller.
